Construction Requirements:

1.If the Residential Unit is registered with a HomePro 2-5-10 (SBS-30-10) Warranty the Member shall ensure, or cause the Purchaser to ensure, that that the Permanent Foundation is engineered, and that such certification is provided to PHW upon request.

2.The adequacy of soil condition and foundation design shall be examined and certified in writing by an appropriately qualified and independent Engineer where the foundation is constructed on known or suspected questionable soils. (Including expanding soils, glacial deposits, peat, hog fuel, and other fill material, high water tables, caustic mineral/chemical deposits, soils gases, and sites not serviced by municipal drainage systems).

Copies of Engineering Certifications referenced above shall be provided to PHW on request and PHW may rely on such Certifications.

Testament of Understanding :

It is understood and agreed that upon execution of this registration form the terms and conditions as set out herein are in agreement with the Member. The Member will be deemed to be the vendor of the Residential Unit for all conditions relating to the "Membership Agreement" and the enforcement thereof.

The Member undertakes to supply, in a timely manner, all the above referenced Engineering Reports upon request by PHW.

****No Member is permitted to register Housing Units for any other party.****
